Oppose Location of New School in West Parish

Opposition to the proposed location of the new elementary school in West Andover has been voiced in a letter to Vincent Treanor, president of the Andover Taxpayers' Assn., in which the combining of the Indian Ridge and West schools are advocated at a great saving to the town.

ANDOVER VOTERS APPROACH STATE ELECTION WITH APATHY

The general electorate of Andover approaches the state election on next Tuesday, with an apathy and indifference that makes it difficult to make any predictions with any sort of real assurance.

The interest is spotty and lacking in enthusiasm in all but a few exceptions.

Edith Nourse Rogers will be accorded her usual fine vote in Andover to retain her congressional seat and even though she is not seriously opposed her staunch supporters, particularly among ex-service men, are real active in her behalf.

The contest for the governorship has failed to stir up any great interest and it seems that the candidates will go out of Andover with nothing more than a normal party vote. Frederick Ayer, Jr., will probably do better in his candidacy for attorney general.

There is considerable activity in the district attorney contest with Judge Charles W. Trombly's supporters taking advantage of every opportunity to rally votes for him.

The experienced Councillor Cornelius J. Twomey has a decided advantage over the newcomer Herbert S. Tuckerman and Andover voters will undoubtedly give Twomey a splendid endorsement.

Senator John W. Coddaira, Jr., enjoys the good will of Andover voters generally and the little known contender for his seat will find it difficult to hold even his party's normal vote.

Arthur A. Thompson, Methuen candidate for re-election as county commissioner will pile up a heavy vote in Andover where he is so well and favorably known.

Town Meeting Will Vote On Schools, Salaries

Articles calling for the appropriation of \$1,200,00 for two new elementary schools and for an increase of \$10 a week for all full-time permanent employees of the town will come up for consideration before the voters at the special town meeting to be held at 7.30 p. m., Monday, Nov. 13, in the Memorial auditorium.

There will be five articles in the warrant. The first will be to act upon the school building committee's recommendation that \$1,200,000 be appropriated for the construction of two new elementary schools, one in the center of the town and the other in West Andover.

Andover And Lawrence To Be Combined In Rate Area

In compliance with many requests from Andover telephone users, the New England Tel. & Tel. Co. plans to eliminate, sometime next year, the ten cent toll charge on all calls between Andover and Lawrence, J. Russell Dolan, manager, announced today.

Mr. Dolan said he has advised the Andover selectmen and others that the elimination of toll charges will be accomplished by combining Andover and Lawrence within a single "Extended Service Area." All calls between telephones located in this area, he said, will be treated as local calls, without toll charges.

Mr. Dolan emphasizes the point (Continued on Page 14)

RE-ELECT YOUR GOVERNOR'S COUNCILLOR CORNELIUS J. TWOMEY

Governor's Councillor Cornelius J. Twomey has been alert to the needs of the 5th Essex District. He was a member of the Council Committee on State Institutions. That report resulted in obtaining \$544,000 for modern facilities at the Danvers Hospital.

He attended every meeting and hearing of the Governor's Council. Through his efforts, plans and preparations were speedily put into operation to secure for every section of the District - road building, master highways and civic improvements.

Governor's Councillor Twomey has proven to the satisfaction of Democrats, Republicans and Independent voters that he has done an exceedingly competent job.

Never in the history of the Coun-

ty has there been so much constructive activity in building programs by the State as under the administration of Governor's Councillor Twomey.

His record definitely merits his re-election.

PUNCHARD HIGH

By JANET THOMPSON

SELECTMAN VISITS PUNCHARD

Roy E. Hardy, chairman of the Andover board of selectmen, visited Punchard Wednesday to talk to the members of the civics and U. S. History classes. He described the many activities carried on by the different departments of the local government and also gave an interesting picture of the early years of Andover government. Mr. Hardy pointed out that originally Andover voters held a town meeting every Monday morning to discuss the events of the week, but that finally a small group of men were selected to represent the voters.

From time to time the civics department intends to invite town officials to explain the work that is done in the individual departments of Andover.

Goldsmith Prize Speaking Tryouts were held recently for

the annual Goldsmith prize speaking contest and the following students have been chosen to participate:

Class of 1951, Bessie Christie and Richard Hinckley; class of '52, Barbara Folley and Raeburn Hathaway; class of '53, Phyllis Thompson and Alan Hughes.

The contestants, who are being coached by Mervin E. Stevens of the dramatics dept., will each read a short story selection and will be judged for intelligent, conversational, and expressive reading. This contest will be held in the Memorial auditorium at 12.30 p. m., Thursday, Nov. 16. Everyone is invited to attend.

Coast Guard

In a special assembly last Friday a representative from the U. S. coast guard, Gaetano J. Catalano, spoke to the junior and senior boys, regarding the coast guard academy at New London, Conn. He showed a very interesting color film, depicting student life at the academy, the courses, the cruises, and numerous other activities. In addition, Mr. Catalano discussed the entrance exams and distributed pamphlets concerning them.

Sailing Club

Enthusiasm is running high for a prospective sailing club at Punchard! Mrs. Philip Hogan met with a large group of interested students Thursday to discuss the possibility of entering some boats in the "turnabout" class at Ipswich. The boys in the manual training course would make these turnabouts, dinghy type boats about nine and a half feet long. Mrs. Hogan even brought a boat to Punchard and set it up in the parking lot behind the school, to arouse further interest among the students.

Good Grooming Film

Last week the girls in Miss Frances Collins' gym classes viewed a very worthwhile movie at the Memorial Hall library, entitled "Body Care and Grooming." This film, which is put out by the American College of Surgeons, not only reviewed good-grooming methods but also pictured the basic structure of the skin, the nails, and so forth, thereby stressing the importance of such methods.

Previous to the showing of the movie, Miss Miriam Putnam, librarian, introduced a number of books at the library which deal with the many problems confronting the teenager.

Notes

Since square dancing has once again become such a popular pastime, Donald Dunn has been teaching the girls and boys in the various gym classes the fundamental square dance steps and also several of the individual dances. Marks close this Thursday and report cards will be issued next Friday, Nov. 10.

Hurray! No school Friday, Nov. 3—teachers' convention!

November Club

The November club will hold its first meeting of the season at 3 p. m., Nov. 6, in the club house.

Mrs. Ernest L. Wilkinson, the president, will introduce Herbert H. Coe, of Boston, director of interior design for a department store, who will bring new fabrics, wall papers and carpets with him for illustrations. A question period will follow the talk.

Members may bring guests. There will be a reception for new members before the meeting.

An Editorial

(Continued from Page One)

Sheriff Frank E. Raymond will have stiff opposition here in view of the fact that Everett Dowe of Lawrence is putting up a vigorous fight with youth in his favor.

Our town voters will stand strongly behind J. Everett Collins, whose fine record in the General Court justifies their wholehearted support.

The splendid general legislative record of Frank S. Giles, Jr., will bring to him a strong endorsing vote here in Andover. His Methuen colleague, William Longworth, also has a record of service that will command good recognition here.

Never in the history of this great commonwealth was the more at stake on the way in which the electorate passes up the questions on the ballot this year. It is important that voters pass most intelligently upon those matters. Comments should be helpful will be found on Page 10.

Hallowe'en Party A Huge Success

Hundreds of youngsters in costumes of all descriptions made the second annual community Hallowe'en party Tuesday night an outstanding success. It was better, bigger and just as boisterous as the memorable event a year ago.

Entering into the spirit of the evening boys and girls in bizarre attire swarmed downtown at an early hour, marched in a horrid parade behind the fast-stepping all-girls' band of Punchard high school, and piled into the Memorial auditorium for an entertainment, the awarding of prizes and refreshments.

Besides the hundreds in the parade, many of them just tiny tots accompanied by their parents, hundreds more in costume and others in the role of spectators lined the sidewalks and followed along to the auditorium for the rest of the fun.

At the auditorium the committee lined up hundreds on the stage where the 100 prizes of \$1 each were awarded for the best, the funniest and most original costumes.

Meanwhile the boys and girls of high school age enjoyed dancing in the gym where from time to time numerous door prizes were awarded.

SHAWSHEEN PTA

A Statement By PHILIP K. ALLEN

I hope all voters will consider carefully the men whom they elect next Tuesday to represent their interests.

Responsible Government MUST take the place of irresponsible Government.

Coolidge and Curtis represent responsibility at the State level; Estabrook as Senator; Collins, Giles and Longworth represent responsibility at the local level.

I urge you to endorse the entire Republican ticket on Tuesday, next.

To Give Projector to Central Schools

Telephones in the town are buzzing with excited mothers trying to date up guests in the Central PTA's newest activity to provide the central elementary schools with a movie projector and thus aid in bringing visual education to the schools.

The idea originated with Mrs. Glenn H. Roundy, Central PTA president, and was furthered by Mrs. Harold Wennik, Mrs. Frank Barous and Mrs. Harold Goddard Jr., committee chairmen, and also helped along by Mrs. Raeburn Hathaway, Mrs. Stephen Sorota, Mrs. William Edwards, Mrs. Frank Sweeney and Mrs. John Birdsall, central school mothers.

The idea is simple. If each of the 16 original hostesses were to invite eight guests for tea a total of 128 people would be entertained. Then if each of the 128 would entertain four guests each, 512 would be reached. And if these invited two guests each 1024 tea guests would have grown from the original 16.

Meanwhile, the 1024 will have paid a fixed charge and by means of this tax the golden harvest could be applied toward the movie projector.

OLD TREE COMING DOWN

A monster tree on Lowell street near Playdon's greenhouses is being cut down by the tree department employees as it has been found to have the dutch elm disease. The tree, eight feet in diameter, is one of the oldest elms in the town.

Two years ago the voters of Andover showed their appreciation for the way the license situation has been run in this town by voting to continue all forms of license. In the intervening two years we have continued to justify that faith. We like Andover. We're proud of the town, and we want the town to be proud of us. That is why we have zealously pursued a policy which we have felt is in keeping with the high standards of our town.

In the belief that we have continued to maintain these high standards, and with the pledge that the next two years will find us equally as determined to be worthy of Andover's trust, we once again request the town's voters to

Mrs. Eva Dobbie of 7 Maple court will conduct the rug and sewing classes now being formed.

Registration is being made for the baton swinging class which will be conducted by Miss Patricia Hamblett, daughter of Mr. and Mrs. William P. Hamblett of 62 Chestnut st. Miss Hamblett, former Punchard drum majorette, is now attending the University of Maine.

The baby sitters club is being organized. Any member of the center may sign up. Registrants will be given a set of regulations and will be asked to report the results of engagements. Baby sitters will not be sent to homes that have not been investigated through membership.

Adults will be invited to join the camera club together with juniors and intermediates. The club enjoyed a fine season last year under the sponsorship of Donald Look and the direction of Miss Mona Moore.

Wrestling classes will be under the direction of James Butler of Ballardvale. He had charge of the successful season last year. New mats have been purchased from proceeds of the show staged last year at the auditorium.

Registrations are being taken for senior and adult tray painting classes.

The center is one of the 14 agencies that derive funds from the community chest. Owing to the expansion program last year the need for more funds has become apparent. The committee in charge of the guild has asked for a larger appropriation to meet this need and it is therefore hoped that Andover citizens will give generously.

More information about the classes and registration may be obtained at the center, phone 554.

Van Gogh Paintings Now At Library

A series of photographs of paintings by Vincent Van Gogh with accompanying legends may be seen at the Memorial Hall library. The panels are loaned by the Museum of Fine Arts of Boston, and are part of the traveling loans made available by the Museum to educational groups.

Some of the panels are photographs of the paintings, other are color reproductions. An interesting feature is that each subject is accompanied by an excerpt of a letter written by Van Gogh to a friend or relative at the time of making the painting, which gives his intention and observation on the technique or subject used.

Among the subjects included in the exhibit are crayon, water color and oil on canvas studies.

You Can Trust COOLIDGE

He will not waste your money

Coolidge Will Use Highway Money to Develop Highways

Coolidge will carry forward the Dever-delayed \$200,000,000 Highway program, which as legislator, Senate President and Lieutenant Governor, Coolidge helped to plan, create and support. Coolidge will spend funds for competent personnel and materials. He will not squander money intended for motorists' benefits and urgent military needs, on costly political signs, leaf-raking lawners and swarms of election-year appointees now stuffing payrolls and holding up projects. Coolidge will give regular Public Works personnel and qualified contractors the opportunity, without political interference, to expand our highways properly. He will see that motorists get an honest dollar's value for every dollar spent on construction and maintenance.

Coolidge Will Really Serve the Public

Deserving applicants for aid or hospital treatment will not need the references of politicians before they can get help. Trained personnel—not pork barrel misfits—will care for the sick, the crippled children, the mentally afflicted, the helpless and the needy. Kindness will replace the sordidness of politics. Only proper prices will be paid for supplies and they will be used properly. Scientific treatments will be increased because devoted career men and women will be encouraged to do a fine job and not be so discouraged that they quit the state service in disgust, as now.

Coolidge Will Administer Housing Program in Behalf of Veterans

Under Coolidge, politics will have no part in the huge \$200,000,000 Housing Program, which was originated, carefully planned and successfully launched while he was Lieutenant Governor. Coolidge will require that the program be fairly administered on behalf of veterans eligible for its benefits. He will remove the causes of complaints that interfere with completion of remaining projects.

Coolidge Will Run Port of Boston Authority to Bring in Shipping

Coolidge will see that the Commissioners fill the long-empty post of Director with a topnotch executive. Coolidge will get experts for Field Representatives and other key positions—replacing political hacks, who have no training, ability or interest, with skilled men who will try to increase exports and imports, thereby giving employment to factory workers, longshoremen, truck-drivers and others. Coolidge, by eliminating incompetence and political sabotage, will bend every effort to make self-supporting the Authority for which approximately 26 million dollars have been raised and authorized and which still operates at a two million dollar deficit. He will recommend corrective legislation whenever necessary.

Coolidge Will Protect Rights of Civil Service Workers

Coolidge will free faithful state employees from discrimination in pay that results when unfit political favorites draw big salaries without working. Coolidge will see that Civil Service laws, rules and regulations, including veterans rights, are carried out for the benefit of Civil Service employees. No longer will their hopes for deserved promotion be ruined by the appointment of outside political pets over their heads. Coolidge will end political interference which ruins morale, wrecks efficiency and robs the public of the type of service its money should provide.

Coolidge Will Have Competent, Representative Administration

As Governor, Coolidge will surround himself with able and devoted leaders, representatives of our population, who will have the vision, know-how and courage to clear away the wreckage of the last two years, end Dever Squandermania and remove the blight of political interference. They will give a sound, humane, progressive administration, free from arrogance, dictatorial domineering, brush-offs and personal selfishness.

Coolidge Tells the Truth—Coolidge Keeps His Promises

Dever promised to keep the MTA fare at ten cents. But after election he jumped it to 15 cents. Dever promised to cut the cost of government. Instead he doubled it and drained off workers' wages into taxes for wastes and extravagances.

Dever is at his old deceptive game again. He is spending the biggest election campaign fund in history on expensive television, radio, billboards, advertising and other costly media in another attempt to fool the people into voting for him.

He is deliberately taking sole credit for public improvements, which Coolidge and others helped plan and start. He is telling half-truths and making false charges. He is again promising the moon to every group and every section.

Two Years Ago Dever Fooled MTA Riders and Others With His False Promises and Phony Claims.

Massachusetts People Will Not Let Dever Fool Them Again This Year.

YOU CAN TRUST COOLIDGE
ELECT COOLIDGE GOVERNOR ON TUESDAY, NOVEMBER 7

John L. Donoghue, 64 Chestnut St., Charlestown, Mass.

EDITORIAL THOUGHTS

IT'S UP TO YOU

Every citizen is urged to get out and vote next Tuesday to help choose those best qualified to run the affairs of the commonwealth for the next two years.

This is a multi-million dollar state government. You pay for it and it is up to you to select only those who are best fitted to assess and spend that part of your income which goes for the cost of government.

You can with little trouble find out about the candidates and their past records, and this is the knowledge you should take with you when you go to the polls to mark your ballot.

Don't be too busy to vote. This glaring indifference on the part of the American voter in the past has kept many away from the polls on election day, enough to swing many an election! Your vote counts. Use it.

And when you vote remember to vote a complete ballot. Besides electing various officials you will be called upon to decide eight questions, several of which will have an important bearing on our future welfare and economy.

Three of these are the subject of much controversy. Question No. 3 calls for an increase in old age assistance which has been estimated at \$54 million annually. No. 4 would establish a state lottery in which the proceeds, "after expenses", would be divided 50 percent for the winners and 50 percent for the needy aged, the blind, and dependent children.

Acceptance of the two referendums "will provide a little additional sunshine for 100,000 of our less fortunate elders", backers of the plan say.

Opponents claim the "little ray of sunshine" would more than likely "throw the commonwealth into a state of financial chaos," especially if the one for increased benefits is accepted and the lottery to finance it is defeated.

There is much concerted opposition to the state lottery but No. 3 is a different story. If passed it will mean the raising of \$54 million in new taxes next year in addition to the estimated \$80 million the state must levy in new and revised taxes for regular state activities.

Questions 3 and 4 should be defeated.

No. 5 would establish a flat rate for compulsory automobile insurance instead of the merit rating system now in effect.

The merit plan which the insurance commissioner has adopted is based solely on who causes the accident, not where it happens. The flat rate plan would force car owners outside cities like Boston, Chelsea and Revere to help pay the cost of accidents caused by drivers in these high rate cities. It is estimated that if adopted, the flat rate plan would cost Andover car owners another \$100,000 a year. This is another question which should be defeated.

Other questions for the voters to decide involve changes in the state constitution, pari mutuel betting on horse and dog racing in the county, option on liquor licenses, and an extension of rent control for six months.

The polls in Andover will be open 12 hours, from 7 a. m., to 7 p. m. Remember, you pay the freight, and you'll get only the kind of government you vote for.

Let's profit by the mistakes of others. We may not live long enough to make them ourselves.—Oskaloosa, (Id.) Tribune Press.

Down the Years with The Townsman

50 Years Ago—November 1900

Younger boys and girls had lots of fun Hallowe'en night parading the streets in queer and outlandish costumes, carrying Jack-o-lanterns and torches. They played the usual pranks, ringing doorbells, playing tick tack on windows and hurling the rutabaga, at least the more mischievous did.

A great improvement in the square is the concrete crossing from the post office entrance to Memorial hall.

Election day next Tuesday. Polls open from 7 o'clock to sunset.

A blaze between the ceiling and roof of the Andover Steam laundry was extinguished after some lively work by the fire department.

Andover Zouaves and P. A. Rough Riders parade with the Andover Brass band in Ballardvale prior to the Republican rally in the Bradlee hall.

Rousing Republican rally held in town hall. Cong. William S. Knox and the Hon. Charles F. Sargent of Lawrence, candidate for senator, among the speakers. Many prominent citizens occupy seats on the platform.

Lawrence Gas & Electric Co., petitions selectmen for right to provide gas service for Andover.

Carefully revised voting list contains 1243 names, the largest number of voters the town ever had.

J. E. Barnard of Andover is one of the incorporators of the Haverhill and Andover street railway company which will run 7½ miles between the two communities.

25 Years Ago—November 1925

Representative gathering of men discuss civic problems at housewarming and steamed clam supper held by Engine Co. No. 1, at the central fire station.

Directors of Andover chamber of commerce outline plans for proposed widening of Main street, improvements in lighting, the printing of a publicity folder for the town, and other activities for the coming year.

Memorial Hall library issued 4071 books for home use during month of October, and at Ballardvale 588 were taken out.

VIEWS OF THE NEWS

By LEONARD F. JAMES

Ever watched a magician at work? His technique is simple. Get the audience to watch his left hand, then pull a trick with his right. Put Vishinsky into tails and white tie and you've got the slickest magician of all. But we hope there's always some noisy character in the audience who yells out to expose the tricks.

The Great Vishinsky is no newcomer to the stage. He's been performing his acts for quite some time. And he wants to stay in business, so he returns for this year's autumn engagement with an added line. He's a hypnotist as well, this year. And a pretty slick one at that. Of course, he brings back the good old stand-by tricks, but his patter has improved. The newest line is "peaceful co-existence of the capitalist and socialist (so he calls it) worlds."

Vishinsky And Peace— A La Russe

His booking agent, Josef Stalin, feels that some of the Russian troupe have bungled their acts. So Vishinsky is sent on to put the audience in good mood and give them their money's worth. Everybody is in pretty good humor. They saw through the Korean trick, and feel rather happy about being so sharp. So to keep them contented, Vishinsky is now appearing in the Great Peace Trick.

But watch his hands while the patter goes on. What's the gag this time? That the United States is building up western Europe military forces while Russia wants everybody to reduce by one third. That's a good line—if the voice is hypnotic enough. But our noisy critic is at it. He wants to know how many men Russia now has under arms. And how many will she have left if she reduces them by one third? The answer is that there are 4,000,000 Russian troops under arms. And Western Europe is trying desperately to get 1,500,000 organized. So if Russia reduces her forces by one third, and Western Europe keeps their men down by a corresponding amount, the danger of war should be lessened. Says Russia! But watch Vishinsky's hands. What does he produce? More than 2,500,000 Russians against 1,000,000 Western Europeans. Still hypnotized?

Atomic Control—
Russian Dressing
A line guaranteed to get the audience is the argument that no one wants atomic war. And no one does. So Russia produces a trick that eliminates it. Says Vishinsky. Here's the patter. "The delegates of the United States and Great Britain blocked the Soviet proposal for atomic control by demanding, "First security; then disarmament." This is now changed to, "First confidence; then reduction and regulation of armaments, and then and only then the prohibition of the atomic bomb." What prevents us from having an atmosphere of confidence, trust and security?"

Our noisy friend is ready with the answer, a little crude but to the point. "You and your whole crowd. You are tricksters and crooks." And he's right. They are consummate tricksters, unprincipled crooks.

Control—By Magic Wand

The whole secret of the Great Peace Trick is in the definition of "control." How do we control disease? By passing a law against it? Or by taking active steps to combat it? How do we control the use of atomic weapons? Vishinsky can answer that one. "Whenever

there are suspicions with respect to the violation on the prohibition of atomic weapons, then the Atomic Security Commission would be fully entitled to carry out special investigations." Fair enough? Yes, if you are hypnotized. But watch the man's hands. See him put that little black ball in the box? Well, that's what he's doing, and giving out this line to cover the noise as it rolls in. "The Commission's decision would be adopted not by the unanimous vote of its members, but by a simple majority." Now that's using the good old American tradition, and the standees in the back fall for it. But watch it, boys. Do you know what that little black ball just did? It vetoed the wishes of all other members of the Commission to inspect Russia. The others want to inspect Russia to find out whether she's making atomic weapons—assuming that Moscow's plan of control is now in operation. Of course, if you call that "control," sit back comfortably in your seats. You won't have them much longer.

No Atomic Bomb—No War?

But here's our noisy character again. What he wants is a watertight system of inspection, anywhere, anytime and effective. And no nonsense about black balls. But that spoils the act and encourages another nuisance. This one wants to know why only atomic weapons are being condemned by Russia. Are these the only ones that make for war, he wants to know. He asks, what almost won the war for Russia in Korea. And he supplies the answer. Tanks. Russia has 25,000 of them. How about some control over those? If there were no atomic weapons would Russia be peaceful?

Don't forget the hands again. They are producing more tanks, more planes, more submarines, grabbing for more territory while this peaceful patter drones on. "You don't want atomic war, do you?" But there are other kinds of war. War by stooges—in Korea, Indo-China, Tibet.

What Is Isn't—What Isn't Is

It's about time the audience picked up Vishinsky's own words and chanted them back to him. "What prevents us from having an atmosphere of confidence, trust and security?" Has there been one single action to back up the high-sounding talk? Has Russia given one ruble, one idea, one man to the great effort of helping to get weak nations to their own independent feet?

Vishinsky, like all magicians, has one purpose. To make people believe in something that isn't, and to keep them from looking at what really is. That's his job this autumn.

New School

(Continued from Page One)

Signed by Ralph I. Robbins, John M. MacKenzie and Michael Melka, the letter gives numerous reasons why the new school should be located at a point to include both the Indian Ridge and West schools, and recommends a site near the intersection of Lincoln street and Shawsheen road.

Some of the reasons they give are: it can be connected with the town sewer system thereby eliminating unpleasantness and expense of septic tanks; it would be about five-tenths of a mile from West Parish center and equidistant to the railroad tracks at Essex street. The proposed site at the old Carter farm is approximately four-tenths of a mile from the West Parish center.

There are 61 pupils in the West school, the letter says, 45 of whom live distances too great to walk to the Carter site. This leaves only 17 children who would be required to walk five-tenths of a mile or the same distance travelled by the children from Essex street and Red Spring road to the Lincoln-Shawsheen road site. Today's combined enrollment of the two schools is approximately 120 pupils. The six room school can take 170 pupils.

This plan, the advocates say, would mean a saving of about \$175 a year on the tax rate for 15 years.

It would save the salaries of four teachers at Indian Ridge school (two from West Center and four from Indian Ridge transferred

It would save the salaries of four teachers at Indian Ridge school (two from West Center and two from Indian Ridge transferred

to the new school), one year \$11,616., in 15 years, \$174,240; saving of one janitor's salary, one year, \$2500., in 15 years, \$37,500; elimination of modernization program (necessary if Indian Ridge school is kept open), estimated \$50,000., yearly upkeep and repairs at Indian Ridge including heating, one year, \$2000., in 15 years \$30,000; estimated cost of special teachers (music, art, etc.), one year, \$1600., in 15 years \$25,000; estimated cost of providing Carter farm site with services available at the Lincoln street site, \$50,000.

This would be a total saving of \$366,540 in 15 years. The estimated cost of the new school is \$350,000, so that the cost to the town over 15 years would be nothing, and there would be a saving of \$24,436 a year.

'Just One Vote'

*Read these examples of how
a single vote
changed the course of history*

Frequently, especially around election time, you hear this question,

"What good will *one* vote do?"

Of course, hundreds of elections, small and large, have swung on a single ballot.

Here is some really big stuff when *just one* vote turned the tide.

The Declaration of Independence

Our American charter of liberty, the Resolution of the Declaration of Independence, was passed by the Continental Congress, July 2, 1776, when Caesar Rodney, delegate from Delaware, rose from a sickbed and rode 80 miles on horseback through a stormy night to cast *just one vote*—putting his state on the side of freedom and helping assure unanimous approval of all the colonies.

Saves a President . . . Elects a President

Andrew Johnson, only U. S. President to be impeached, kept the Presidency by *just one vote*. The U. S. Senate, sitting as a court of impeachment, voted 35 for conviction and 19 for acquittal—*just one vote* less than the two-thirds majority necessary to convict.

Rutherford B. Hayes was elected President by one vote. His election was contested, and it was referred to an electoral commission. The commission gave the contested electoral votes to Hayes by *just one vote*, 8 to 7. Whereupon, Congress declared Hayes elected by *just one vote*, 185 to 184.

Incidentally, the man who cast that deciding vote for Hayes, an Indiana Senator, won his place in Congress by *just one vote*. And that one vote was cast by a man who, though desperately ill, insisted on being taken to the polls to cast that *one ballot*.

Votes for Women by Just One Vote

In 1918, woman suffrage in the U.S. passed the House

of Representatives with *just one vote* to spare. When the bill went to the Senate, it failed to pass by just two votes. (It passed both houses of Congress the next year.)

In World Affairs Today

But don't think the importance of just one vote, or a few votes, applies only to the past.

This very year, the present Government in England is maintained in office by just three votes. They must hold 313 seats in Parliament for an absolute majority—it has barely enough for day-to-day business with 316.

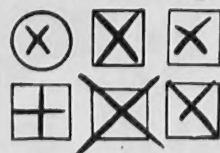

Yes, friends, you can check the present or dip into the past and turn up a lot of cases where *just one vote* tipped over or set up somebody's applecart.

Every Vote Is Equal

"My vote doesn't count" is pretty silly stuff, isn't it? Your vote counts just as much as the President's. Your vote is the equal of anybody else's in hiring or firing a man in public office. If your vote is *used*. Yet in the last Presidential election, 45 million qualified voters failed to go to the polls.

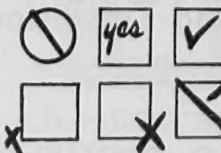

No matter how you vote, doesn't it give you a pretty good, red-white-and-blue American feeling when you've marked your "X" and step out of that voting booth?

These Marks are Legal

In each case a cross has been used, and the intersection of the lines of the cross is inside the circle or square.

These Spoil Your Ballot

Top 3 ballots are invalid because crosses were not used. Bottom 3 ballots are void because the lines of the cross do not intersect within the square.

Note—If a voting machine is used in your polling place, remember, it is completely reliable and enables you to split your ticket in any manner desired.

You have one Vote

FREEDOM IS EVERYBODY'S JOB!

The Andover Townsman

Andover's Own Newspaper Since 1887

Sees Textile Jobs Lost If U. S. Tariff Is Cut

The Shawsheen Mills of the American Woolen Co., has posted on its bulletin boards notices to the effect that jobs will be taken away from American workmen if negotiations now under way by the state department for further reduction in U. S. tariffs are completed.

The notice says: Our state department is negotiating further reductions in United States tariffs with representatives of 30 foreign nations at Torquay, England. The department's admitted aim is to promote the importation of increased quantities of foreign products, whether we need them or not.

One product under consideration is wool textiles. There is not enough business for all of our own woolen mills now, and a number are shut down or working part time. Increased importations of foreign woollens will take away the jobs of more of our own woolen workers.

The United States today imports

a tremendous quantity of raw wool, most of it from the British Dominions and South America. If, instead of importing wool and manufacturing the fabrics here, we import the finished fabrics the increase in imports will consist almost entirely of the importation of foreign labor. Why engage workers abroad to manufacture wool fabrics which we now pay American workers to produce in this country? Such a switch does not make sense. We need to keep our textile workers occupied and we need to keep a large and efficient wool textile industry operating in the United States. If the state department does not abandon its destructive policy of taking jobs away from American workers and handing them over to foreigners, congress should refuse to renew the trade agreements act under which the state department is giving away our remaining tariff protection.

Membership Drive Breaks All Records

The Central PTA drive for membership has "gone over the top" with a new high of 953 members. This makes it one of the largest units in the state. Last year's record-breaking total was 931.

Prizes were awarded to classes having the highest membership percentage. The winners: Stowe, grade 4, Miss Alice Stack, 88.9%; Jackson, grade 2, Miss Bascom, 87.7%; John Dove, grade 3, Mrs. McQuestion, 85.3%; junior high, room 13, Miss Sweeney, 59.32%; Punchard, room 7, Miss Fox, 73.3%.

The percentage of membership in schools was: Punchard, 45.96; junior high, 50.2; John Dove, 80.7; Jackson, 76.7; Stowe, 72.2.

Mrs. Harold Goddard Jr., membership chairman, in making this announcement said that although the drive ended Oct. 27, membership is still open to parents. The teachers enrollment was 100%.

chief continued, "and somebody brought in for manslaughter. There are too many parents letting their kids take guns into the woods. The 22 calibre long bullet they are using in rifles will kill at half a mile."

One child in Shawsheen was reported to have had a very narrow escape while playing in her yard and heard a bullet go whizzing under her chin. A resident of Pine street has also reported that he was almost hit while he was in his back yard.

"A gun is a dangerous weapon in the hands of anyone and must be treated as such," the chief says. "When boys just in their teens carry them into the woods tragedy is invited." Chief Dane says it is up to the parents to see to it that youngsters are not allowed to handle firearms. "The police will take away any firearms shot by teen age boys too close to a house. Parents are asked for their cooperation in stopping the dangerous practice."

League Opposes State Lottery

The League of Women Voters is opposed to the state lottery Referendum No. 4 for several reasons, Mrs. Dudley Fitts, president of the Andover league announced today.

The chief ones are: only a tiny part of the needed money for the aged can be raised by a lottery, for the major part of the receipts must go to the administration of the lottery (we cannot use the federal mails); much of the revenue will come from those least able to afford it, and indeed from those it is designed to help; the referendum is so loosely drawn that there is no limitation on the amount of gross receipts that can be used for running the lottery, or on the number of persons that can

be employed. There is a danger that a state lottery lead to corrupt government.
